**Application to Request a Mentor  
for an Evidence Based Practice Project Grant**

**Small Grants Program**

The Small Grants Program is now accepting applications from all NANN members with an interest in furthering their skills in implementing an Evidence Based Practice (EBP) project. The program provides ideal opportunities for nurses with little or no research background to work closely with a mentor who is experienced and who will enhance their skills and promote the success of their EBP project. Applicants are encouraged to identify a locally based mentor to guide them in developing their proposal and in carrying out their project if funded. NANN can help match up mentees with mentors if needed. To request a mentor please fill out the information below.

**Please Note:**

- Grant recipients must register and attend the 2016 Annual Educational Conference to receive their check and award.
- Grant recipients will then present their findings at the 2018 Annual Educational Conference.
- The deadline to submit your grant application is March 1, 2016.
